

## Data Bundles

[\(#\)](#) [\(#\)](#) [\(#\)](#) [\(#\)](#) [\(#\)](#)

**Now with Data Rollover & Auto-renewal.**

Whether you are an occasional, regular or heavy user, MTN has a data plan that suits your lifestyle. Once you have identified the prepaid bundle plan that best suits you, simply text the migration code for the plan to **131**(see table below) or select your preferred bundle from the Fastlink user interface and you will be switched immediately to the bundle plan of your choice and the corresponding activation fee deducted from your account. You will also receive an sms message on your phone or laptop confirming successful bundle activation.

**Data Rollover:** Now you can rollover your unused internet data to the next month subscription. All you have to do is ensure that you auto-renew your data subscription before it expires and your unused data is automatically moved to the next month.

Note that data rollover feature is only applicable to monthly plans.

**MTN Data Gifting:** Data Gifting service allows you to send a data bundle to your friends and loved ones, by simply paying for the data bundle on behalf of the person.

Data Gifting can also be used to send data to your other smartphones, modems and iPad.

### How to send Data as a Gift Plan:

#### Option 1 (SMS):

1. Register for the Data Gifting service by sending keyword REG to 131; you will receive a unique authentication PIN
2. Text key word "GIFT [**MSISDN**][**Data Bundle Code**][**PIN**] to 131. E.g Gift 0803xxxxxxx 106 0000. Where 106 is the code of 100MB monthly plan and 0000 is your PIN"

#### Option 2 (USSD):

Dial \*131# and follow the menu

#### Auto-Renewal:

This allows you to enjoy un-interrupted data access on your phone or tablet. Your active data bundle will be automatically renewed at the end of the validity period. In case you exhaust your data bundle before the validity date, you will receive a notification advising you to activate a new data plan or continue at pay as you go rate (5k/sec).

For expert technical assistance on MTN Data Plans, visit the nearest MTN Store and talk to the **Tech Squad** Personnel.

### Internet Services (</products-services/internet-services/>)

#### MTN Packages

[MTN TruTalk \(/products-services/mtn-packages/trutalk/\)](/products-services/mtn-packages/trutalk/)

[MTN Smooth Talk Plus \(/products-services/mtn-packages/smoothtalk/\)](/products-services/mtn-packages/smoothtalk/)

[MTN Happy Hour \(/products-services/mtn-packages/paygo/happy-hour/\)](/products-services/mtn-packages/paygo/happy-hour/)

[MTN Zone \(/mtnzone/\)](/mtnzone/)

#### Value Added Services

#### Internet Services

#### International Roaming

#### MTN Airtime

#### Phones and Devices

## Register your SIM

Register the MTN SIM in all your data enabled devices, including Fastlink Modem, MiFi, iPad & other Tablet devices as mandated by NCC; to continue enjoying internet access on the network with the widest data coverage.

Bundle Plan	Price (N)	Total Allowance	Data Validity Period	Activation Code (Text to 131)	USSD
10MB	100	10MB	24 Hrs	104	*104#
25MB	150	25MB	24 Hrs	112	*112#
50MB	200	50MB	24 Hrs	113	*113#
25MB	400	25MB	7 Days	105	*105#
100MB	1000	260MB	30 Days	106	*106#
250MB	1300	325MB	30 Days	109	*109#
500MB	2000	750MB	30 Days	110	*110#
1GB	3500	1.5GB	30 Days	111	*111#
3GBNight(9PM-6AM)	2500	4.5GB	30 Days	102	*102#
3GBWeekend (Fri9PM-Mon 6AM)	3000	4.5GB	30 Days	108	*108#
3GB	6500	4.5GB	30 Days	129	*129#
5GB	8000	7.5GB	30 Days	101	*101#

**Data Usage Guide**

ACTIVITY	USAGE GUIDE
1 hour instant messaging	0.25MB- 1MB
1 hour of web browsing	1.5MB-25MB
Download 100 e-mails	1MB-10MB
1 hour on Facebook	2MB- 80MB
Download 1 photo	0.05MB-2Mb
Download 1 MP3 file	3MB- 8MB
1 software download	70MB-800MB
1 hour of video streaming ( e.g. YouTube)	250Mb-500MB

**Data Speed**

Signal	Peak Speed	Average in
<b>GPRS</b>	115 kbps	33 - 35.8kbps
<b>EDGE</b>	384 kbps	Not Yet Fully deployed
<b>3G</b>	384 kbps	100 - 240kbps
<b>3.5G (HSDPA)</b>	<b>3.6 Mbps</b>	<b>800kbps</b>

Notes: The table above represents the Peak data rates across the MTN network, and also shows the average transfer rate of data when accessing popular internet sites using the MTN Network. It should be noted that the actual speed experienced by the end user could be different from the table above due to other limitations outside of MTN's control, such as:

The resource used (e.g device type) being used to access the mobile data service.

The availability of the server being accessed (internet site, mail server, etc.)
